

Pedestrian Deck Concrete Protection System

Terapro PUR Pedestrian System

A deck coating solution providing concrete protection and slip resistance to help protect against wear due to pedestrian traffic.

Terapro PUR Pedestrian System

Description:

Terapro PUR Pedestrian System is an easy to use, hand-applied, multi-layer elastomeric concrete protection system designed to help protect against wear due to pedestrian traffic. This system is tested in accordance with ASTM E303 to provide skid resistance, has no noxious odors, and low VOC. After application, the surface is ready in 12 hours for pedestrian traffic.

This system is part of Siplast's Terapro PUR Deck Coating portfolio of polyurethane- and polyurethane/polyurea-based solutions that help provide concrete protection and slip resistance for pedestrian surfaces with light to medium traffic. Terapro PUR products are effective, economical coatings suitable for walkable surfaces including walkways, stadiums, plaza decks, and balconies.

System Components:

- **Primer Coat:** Varies based on substrate
- **Base Coat with Aggregate:** Terapro PUR 3200 with 30/40 Mesh Aggregate
- **Top Coat:** Terapro PUR 3200

Advantages:

- Easy-to-use hand-applied system
- No noxious odors
- Low VOC
- Tested in accordance with ASTM E303 to provide skid resistance

Color Options:

Top Coats

7035 Light Grey

7042 Traffic Grey A

7043 Traffic Grey B

Base Coats

9003 Signal White
