

MONARFLEX® WHITE MONOBOND TAPE

Commercial Product Data Sheet

Monarflex White MonoBond Tape is a synthetic, cloth-reinforced, joint and lap sealant double coated with an extremely aggressive adhesive. It is designed to offer superior adhesive strength over difficult substrate surfaces in a variety of exterior applications. Effective for wrapping or sealing joints and junctions. White MonoBond Tape is used where bonding to a difficult substrate is a concern, and where Monarflex Scaffold Sheeting is to be bonded.

Contact Siplast for information on approved product uses.

USES: TEMPORARY ENCLOSURES

Color	White
Coverage	Roll: 2 in x 75 ft (22.8 m), Case: 1800 linear ft (570 m)
Thickness	14 mil
Tensile Strength	24 lb/in (12.2 kg/25 mm)
Elongation	10%
Application Temperature	35°F – 120°F (2°C – 49°C)
Service Temperature	-30°F – 140°F (-35°C – 60°C)

PRODUCT INFORMATION

Application

Refer to the appropriate Siplast Installers Guide for detailed application information.

Storage and Handling

All Siplast Monarflex products should be stored on a clean, flat surface and in a dry place out of direct exposure to the elements. Materials stored on the job site during application should be kept on a pallet in a location that will protect the materials from rain or construction damage.

See product packaging and the Safety Data Sheet for Specific information on the safe handling of this product.
