

INSULPERM® INSULATION BOARD

Commercial Product Data Sheet

Insulperm is a premium quality CFC-free expanded polystyrene insulation board of nominal 1 pcf (16 kg/m³) density. It is specifically designed for use in Siplast Lightweight Insulating Concrete Systems. This extremely lightweight board is specifically designed to give the system good composite strength while allowing the release of moisture vapor.

Contact Siplast for information on approved product uses.

USES: SLIC INSULATION COMPONENT

Standards	ASTM C578 Type I
Board Size	2 ft x 4 ft (0.61 m x 1.22 m)
Thickness*	1 in – 16 in (2.5 cm – 40.6 cm)

* Contact Siplast for additional thicknesses. We sell up to 28" thickness.

PRODUCT INFORMATION

Application

Refer to the applicable Siplast Technical Guide for detailed application information.

Storage and Handling

All Siplast roofing products should be stored in a dry place out of direct exposure to the elements. Material should be handled so that it remains dry prior to and during installation.

See product packaging and the Safety Data Sheet for specific information on the safe handling of this product.
