## NOXITE® ROOFING GRANULES

### Commercial Product Data Sheet

Siplast Noxite Roofing Granules are granules matching those used in the production of Siplast Eco-Activ® roof membranes. Noxite Roofing Granules decompose airborne pollutants into non-toxic by-products when exposed to sunlight (UV radiation). Noxite Roofing Granules are similar in size and shape to standard Siplast No. 11 Roofing Granules.

Contact Siplast for information on approved product uses.

### PRODUCT INFORMATION

#### Application

Refer to the applicable Siplast Technical Guide for detailed application information.

#### Storage and Handling

All Siplast roofing products should be stored upright on a cool, dry surface. Care should be taken that containers are not dropped and container seals are not broken prior to use. All roofing products should be stored in a dry place out of direct exposure to the elements and kept away from excessive heat, fire or open flames.

See product packaging and the Safety Data Sheet for specific information on the safe handling of this product.
