### PRODUCT INFORMATION

#### Application

Refer to the applicable Siplast Technical Guide and Siplast PVC Detail Manual for detailed information on application of Parasolo PVC T-Joint Cover Patches. Parasolo PVC T-Joint Cover Patches are applied via hot air welder. Parasolo PVC T-Joint Cover Patches can be used with both Parasolo PVC and PVC KEE membrane systems.

#### Storage and Handling

All Siplast roofing products should be stored on a clean, flat surface. All roofing products should be stored in a dry place out of direct exposure to the elements and should not be double stacked. Material should be handled so that it remains dry prior to and during installation.

See product packaging and the Safety Data Sheet for specific information on the safe handling of this product.
