### PRODUCT INFORMATION

#### Application

Refer to the applicable Siplast Technical Guide for detailed information on the application of Parasolo TPO Cover Tapes. Please note that guarantee terms may be limited for systems incorporating this product.

#### Storage and Handling

All Siplast roofing products should be stored on a clean, flat surface. All roofing products should be stored in a dry place out of direct exposure to the elements and should not be double stacked. All unopened material should be stored in its original packaging at temperatures between 40°F – 110°F (4°C – 43°C). Material should be handled so that it remains dry prior to and during installation.

See product packaging and the Safety Data Sheet for specific information on the safe handling of this product.
